

## Basic Sea Safety Training Course

With an enviable reputation for safety at sea, who is better placed to deliver your basic sea safety training needs than the Royal Navy?

Through Flagship's unique partnering arrangement with the Royal Navy, commercial customers can access the high quality training facilities, equipment and instruction used by the Navy to train their own personnel.

We offer a five day 'Basic Sea Safety' training course at HMS Excellent in Portsmouth. This Maritime and Coastguard Agency (MCA) accredited course provides sea safety training aimed at personnel working in the commercial shipping industry.

Meeting the requirements of STCW95, the course blends classroom learning with realistic practical exercises using the Royal Navy's specialist on-site facilities, including their world class fire-fighting facility.

### The course syllabus includes:

- ~ Personal Survival Techniques
- ~ Elementary First Aid
- ~ Personal Safety and Social Responsibilities
- ~ Basic Fire Prevention and Fire Fighting

To reserve a place on the next available course or to find out more please contact the Flagship team on +44 (0) 2392 547483
